

Dear Parent of a child with NKH,

**We would like to invite you to participate in the research project on NKH (non-ketotic hyperglycemia), performed by Dr. Liesbet Van Hirtum at the KU Leuven!**

This international research project focuses on describing the development and behavior of children and adolescents (6 – 17 years) with a mild to moderate form of NKH. We hope that this will enable future more focused research on new approaches and treatments of problems in this area.

### ***What does participation mean?***

This study consists of completing 8 questionnaires. Going through the information and all the questionnaires will take **approximately 1 hour and 30 minutes**.

*You will receive more detailed information by clicking on this link:*

<https://redcap.gbiomed.kuleuven.be/surveys/?s=RMT7LY8MC4MENM4N> !

### ***Am I eligible to participate?***

If you are the parent or guardian of a child between 6 and 17 years old with mild to moderate NKH (non-ketotic hyperglycemia)?

Then you are eligible to participate in the study!

One parent may participate per child/adolescent.

*When you click on the link below, you will be asked some questions. Based on your answers, we will verify if you are eligible for the study!*
